

SAMPLE MicroPen EVO Patient Consent Form

MicroPen Evo-Skin Pen

MicroPen EVO is an FDA-cleared microneedling device clinically-proven solution to safely and effectively improve the appearance of facial acne scars for people age 22 and above. The MicroPen EVO also improves the appearance of wrinkles on the neck.

Microneedling procedures are performed in a minimally invasive (little to no introduction of the instrument into the body) and precise manner with the use of the sterile needle head. The procedure is normally completed within 30–60 minutes, depending on the required procedure and anatomical site.

Patient Consent

I understand that results of microneedling procedures will vary among individuals. I understand that although I may see a change after my first procedure, I may require a series of sessions to obtain my desired outcome.

The procedure and side effects described in this consent have been explained to me including alternative methods, as have the advantages and disadvantages of microneedling.

I have been advised that though good results are expected, the possibility and nature of complications cannot be accurately anticipated, therefore, there can be no guarantee as expressed or implied either as to the success or other results of the **microneedling** procedure. I am aware that the microneedling procedure is not permanent and natural degradation may occur over time.

I have read (or it has been read to me) and I understand this consent and I understand the information contained in it.

I have had the opportunity to ask any questions about the microneedling procedure including risks or alternatives, and I acknowledge that all my questions about the procedure have been answered in a satisfactory manner.

This consent form is valid until all or part is revoked by me in writhing
